**COMMISSIONER ISSUES**

**MICHAEL SOLOVEY**

1.       Apparatus and Vehicles – Going to start looking at a pickup truck. Will have that as a Line Item for next year on the budget. We'll get information on the Ford and also the Chevy. The Tahoe was delivered. Will be making a couple of decisions tonight after the meeting regarding the color. Also had to replace the tire and put a new tire on the Tahoe. It was the wrong so we got that adjusted. Also found that the front driver's side looked like it was hit so we found that tire is leaking now so that will be dropped off tomorrow hopefully or we will need a new tire with that. Took a trip out to see 8-2 and we're expecting delivery hopefully by the end of next month and will continue that. Also would like to put the agenda the retooling of 8-3. Has been working on some things and getting some money in the budget for that. It needs to be done. Its long overdue. The 8-2 committee has no problem jumping on the 8-3 retooling committee. Otherwise everything is going good with the vehicles.
2.       Building and Grounds – Waiting for Eddie O. He ordered the

boiler and is just waiting for it to come in. Hopefully it will be in before the first snowstorm.

**THOMAS MAYOROS**

1. Insurance –

Insurance is fine. Other than adding the new vehicle to the insurance that's all that was done this month.

2. Equipment –

New Scott mask came in. Everyone is getting fitted for them. On CO monitors the monitor itself came in and should be back in service but the docking station still hasn't gotten back yet from the warrantee company so we're waiting on that. Various equipment for the new truck is coming in. Ordered the calcium chloride and should be expecting a shipment of that. Should start looking at some different meters again.

**DENNIS PETRICK**

1. Human Resource –

Everything is fine.
