and one or two other guys from the class the opportunity to go to QuickChek and get a razor and shave before coming back. They had ten or fifteen minutes to do that. Their comment was just to take it and just went home. That should be handled however the Board want to handle it. It was taken into advisement by the Board.

**FIRE COMPANY PRESIDENT'S REPORT:**

1. Last night was the company meeting.
2. Handled the issue with the investigating committee in regards to new applicants trying to come on as new members with regards to not owning a vehicle or not being able to have a vehicle dumped off. It's been put on to the Investigation Committee and it's their better judgment to make the decision. The guy across the street wants that is eighteen wants to join but he doesn't have a car. Since he lives across the street he can make it in comparison to the guy that lives all the way down at the waterfront. Since the eighteen year old lives on the borderline of Hopelawn and Perth Amboy it's an issue that was brought up and he wasn't assigned to the company for membership. So from now on we will bring the Board up to speed.

**E.A. REPORT:**

1. New member came in got rid of three. One just came in and another one is coming. Dennis's kid is coming next then we will have a full boat.
2. Trying to work out with Steve Freeman who has the trailer to see if he can bring the trailer here to have a smoke trailer for the kids. Going to see if we can do it with another company. We did it a year ago with South Amboy and the kids enjoyed it and they said they would like to have it again. Will get in touch with Steve to see what the price will be to do it and will try to get another organization or department to come and do something with us. When we did it with South Amboy the kids learned a lot and they were nice enough to treat us to food. Five or six can ride.
3. Everything else is doing good.
