**COMMISSIONER ISSUES**

**MICHAEL SOLOVEY**

1.       Apparatus and Vehicles – Rescue 8 was taken care of. Both fenders have been put on. The piece of diamond plate has been put on. The door has been adjusted which was taken care of by Dennis.  
Rescue 8 and the Excursion will be heading off to AK in Rahway tomorrow to have the lights repaired on that. There's a four inch gash in 8-31. Awaiting the arrival of the new Tahoe and hope to have it sometime this month. Kevin will be taking the Tahoe down to get the one light that is warranted replaced. Just some minor things with the engine and going out first three days of October. 8-3 has a bunch of good ideas on it with the equipment on it with the equipment mounting and just needs to be retooled a little bit. Don't know if we are going to be financially able to get to it this year but maybe we can get the chief involved and have the same committee who is doing the mounting on this one take care of that one. There just seems to be dead spaces, things just thrown in there, so if we could take it all out or contact Fire and Safety and have that done.

The Excursion and the Explorer were taken for their services. Brakes were low on the Excursion so had all the fluids changed.

2. Building and Grounds – Everything in the parking lot is done. The next project is going to have Eddie O come out. Need emergency repair on the boilers.  
The shed is here. Over the weekend will start bringing the other shed out of the bays along with the hose and other stuff out of the bays and into the new shed. The shed is large enough to house everything that is needed. Also will have a ramp built for it. Most of the projects for outside are pretty much done. Looks nice now outside.
